Angels are androgynous high spiritual beings. Intermediaries or messengers between God and humans.

### ***Guardian Angels***

*Guardian Angels are like all other Angels, with one exception – they've been assigned to stand by us throughout our lives,*

*Some people, such as Lightworkers have more Angels surrounding them...assisting in their Lightwork\**

*Guardian Angels are with us before our conception, when we, too, are in soul form. They accompany us through birth and are with us in every thought, word and event we experience in life.*

*Guardian Angels are committed to us for the entire journey of our life – they never leave us and we are their only occupation. They will be with us when we leave this life and when we are, again, a soul in heaven.*

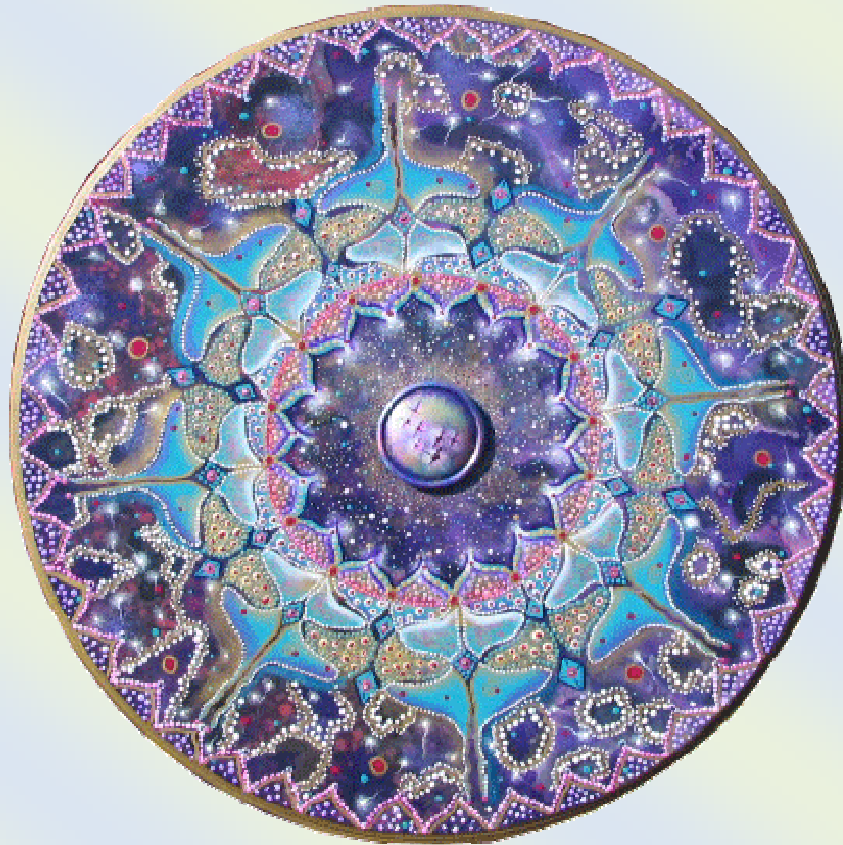

*Your Guardian Angels know everything you've said, done or thought since the day you were born. They are non-judgmental and they look forward to helping you when requested.*

*"Angels transcend every religion, every philosophy, every creed.  
In fact angels have no religion as we know it ...  
their existence precedes every religious system  
that has ever existed on earth."*

*St. Thomas Aquinas*

*Communicating with your Guardian Angel is not difficult....*

***Getting in touch with your Guardian Angels.***

*There are many ways to communicate with your Angels, no method is better than the other, it just depends on what you're comfortable with. Contacting your guardian Angels is the same as contacting other Angels.*

*All you need to do is call them The more you call upon your guardian angel the easier and more naturally the communication will become. You may even start to feel their presence on a daily basis. Taking time getting closer to your guardian angel can bring serenity and balance to your life.*

*There's as many ways to contact Angels, as there are people.*

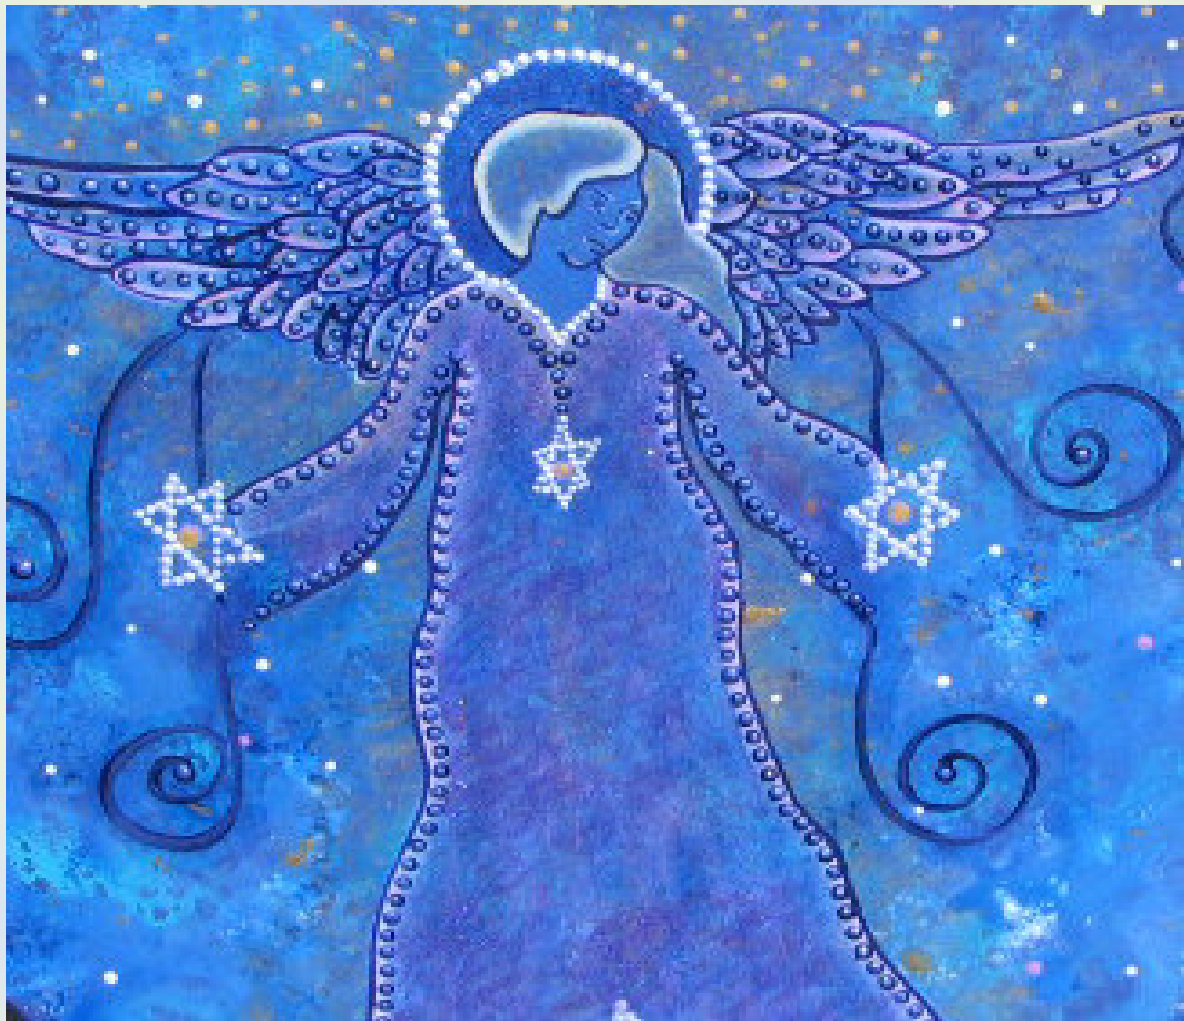

*Guardian Angel from heaven so bright,  
Watching beside me to lead me aright,  
Fold thy wings round me,  
and guard me with love,  
Softly sing songs to me of heaven above.  
Amen*

*Guardian angels hold our Divine blueprint and may gently nudge in the right direction or drop thoughts into our minds, giving us inspiration. They also protect us and keep us from harm.*

*They do not stop us from dying: we all have to die, but they will intervene if it is not our time.*

***Visualisation to Meet your Guardian Angel***

*Sacred Space.... somewhere quiet and peaceful where you won't be disturbed. Light a white candle and some incense...or essential oils...jasmin and rose the Angels favoured vibration....flowered oils and play soft relaxing music. Perhaps be outside in nature.*

*Ask higher self if this is appropriate for you at this time...If so...fully intend contact....Intent is the bridge....*

*Focus on your breathing for a few minutes, relaxing your body. Ground, balance and centre self....chakras....whilst focusing on the breath.....*

*Ask that the whole of your being, physical and aura be filled with golden angelic light...and white light....these are healing and protecting and vibrate at an extremely high rate....enhancing contact....*

*Vision yourself in nature (if inside) if outside see the flowers, birds, insects, animals, grass, shrubs, trees and water features.*

*Enjoy the natural surrounds, feel the love of Nature...the Mother....Give thanks for all....You are in a state of gratitude.....this itself lifts your vibration....*

*In your mind call forth your Guardian angel and become aware of a magnificent golden being of light standing before you. You may sense colours or a fragrance or a gentle breeze becomes a loving angelic touch....*

*Be aware of any sensations....you are being communicated with on a number of*

*levels....simultaneously.....some of this communication will filter through to you at a later time....when in perfect Divine Time.....*

*You may be given a name....do not force this...KNOW that you will recognise the vibration of your Angel immediately from now on....again a name will come in perfect Divine Time....*

*Just be in the present moment....knowing you have asked your angel for this specific contact.....your journey has been like that of having a silent partner....and now from this time on....you will be aware.....of the Angel who has been with you all along\*\*\**

*Spend some time being with your Guardian angel. Be in the now....relax....enjoy....flow with the moment....*

*Give thanks to your Guardian Angel...feel the love...this is indeed a precious moment....*

*Return to your sacred space.....and everyday consciousness when you are ready....you will know....for your Higher self guides you\**

*Breathing normally....centre...ground and balance yourself....you are ready to take on a new phase of life....knowing your contact with your Guardian Angel is very real....and so wonderful....in all ways in your life...and the life of those around you\**

*Spend a few minutes to ensure you are completely back in the physical world. Drink some water and eat a piece of fruit....and perhaps record your experiences in your journal.*
