THIS SYSTEM IS MEANT FOR THOSE WHO WANT TO CROSS BORDERS AND TO INCREASE THE EARTH SPIRITUAL LEVEL, AWARE OF THE TRANSFORMATIONS WE ARE PASSING THROUGH.

None of these KOSO RAYS have anything in common or association with any Rays used on the Planet Earth before. This is not Reiki or any other known healing modality.

All these energies have NO CONNECTION with any previous existing human experiences. These energies started a major spiritual re-evolution on Earth. KOSO RAYS are protected from THE SOURCE and therefore the attunements will work only on those with an adequate spiritual level, which can be considered as background.

Koso Rays® is a free spiritual system meant for spiritual development and the attunements works on DIY basis absolutely free of any master or any charging. Anyone claiming any of these attunements, charging or pretending money for attunements will be considered in violation of founder and system spiritual purpose, not anymore part of the system or representing Koso Rays®, Sokaisi® or the founder purpose.

Koso Rays® has created for spiritual purposes but also can be used successfully for healing purposes but it is not meant to replace any medical treatment.

This 4<sup>th</sup> version of Koso Rays® Manual is the latest up to date, available from December 2009.

KOSO RAYS is a spiritual system from another planet entirely other than Earth or Gaia and I came originally from this other planet. This system has nothing to do with Reiki or other healing systems known on Earth up until now. This system is far more powerful and has a higher vibration than Reiki. As an example, the first two Rays are each 800 times stronger than Reiki. This energy will help raise the planet's spiritual level. I followed this need when I decided to share these energies on Earth.

People like me may feel sometimes that they don't belong here or that everything seems to be strange here, even well known places or people. This is because we are *starseeds* and each one of us comes here to accomplish an important mission during these critical times. This planet is passing through important changes that will affect every one of us. It's time for *starseeds* and *lightworkers* to know and implement their important missions here.

The darkness lost its rights and the dark forces that kept mankind in obscurity for thousands years lost control. The World will see their last desperate efforts. This will lead to a major change of forces and to a restoration of spiritual balance.

Every one of you has a mission and some of you might be aware of this. Others will find it soon and those energies will help all of us to find our spiritual path. The KOSO RAYS attunements are a very strong tool for spiritual awakening. Many of you may encounter strange feelings or images. The truth is that you will transform. One of the qualities of these attunements is that they will wake you up to what you really are and provide an opportunity to move beyond. Please ask for guidance and if you encounter any ET or spiritual beings, they are your old friends or masters who patiently awaited your spiritual awakening. All major spiritual entities that guarded this planet until now are the protectors of this project. This is a group effort concerning the future of the planet and the transformations about to occur at these crucial times; therefore they may appear suddenly to most of you. They are here to protect this project and to assure that it follows its path. It is an important moment in the human spiritual history and they are determined not

to permit any dark forces to interfere. You are about to discover your New Future.

KOSO RAYS comes from the most advanced spiritual civilization of the Universe. The name of this "planet" is Akoshaka and means "The Closest to GOD" and it belongs to the 12<sup>th</sup> dimension. My name is Kosatoiso and I am spiritual leader there. Armand is my extension on this plane and this is the reason I received the energies. My will is to share it with this world and I was entitled to do that regarding the future of this Planet Earth.

What I have mentioned as spiritual background is needed for Koso Rays attunements because of the high vibration of the Rays and obviously the spiritual nature of them. KOSO RAYS have no interaction with other energies. I have mentioned also that not everyone could receive these attunements, because on this Planet it is the standard of evil people to hide their true intentions behind nice words. This might fool some people but not The Source, which Koso Rays come from.

Here is a technique that will let you discover who is hiding behind nice words or images. Simply just open time and space, dimensions, protections, images, projections, energies, blockages, shields or any obstacles to the True Heart and look in the person's True Heart (some experienced ones place an image of light or other images in front of their heart to fool others that can see them) or use KOSO SILVER RAY to reach the True Heart. If you don't "see" yet with your 3<sup>rd</sup> eye, project yourself to the subject's True Heart. When you find the True Heart filled with darkness, something narrow or openings like a dark abyss in the lower side you must be sure about that person is totally related to darkness. The most devoted to darkness sometimes have the upper side of True Heart blocked with something very heavy (that correspond to dark initiations), because God's Light comes from the upper side. Basically those people hate everything that comes from Light and no matter what they could say, it is better not to believe them! They work against any manifestation of Light. Usually they think that no one can see their true intentions, craftily hidden by words or false smiles. You'll find many types of people, but the ones that carry Light in their hearts are the true children of Light. It could be only on the upper side of the True Heart corresponding of their evolution, spiritual efforts or initiations, but true Initiates should carry a light like a Sun that shines circular all around the True Heart. Now please go to search first your masters' True Heart, politicians or any persons you like and see whether they are Light or Dark Hearts and you will know the difference.

KOSO RAYS can do no harm to the human body or psyche as falsely some "masters" claim until now in Reiki. There is no need for any delay between attunements as every Reiki master was taught until now. The only need is for the student to understand how these energies work and the specific areas that they can be used, and I recommend maximum 3 attunements per day. The "settling down of the energies" or the "accommodation of the human body to new vibrations" crap that you heard before is over now! According to this precept, the human body should be destroyed instantly by the high power and frequency of the KOSO RAYS!

Humans often proved to be narrow-minded and seem even to enjoy brainwashing. This is the main reason they enjoy TV shows and politics! Did you ever ask yourselves why the fantastic development of the film industry or who owns all those film companies? Or who owns gigantic media companies and what could be their role? Why gigantic sums of money are involved in this area? Do you know that in every home you can find now a TV set? DID YOU EVER FEEL MANIPULATED?

Koso Rays come from the core of the Source and what Source will create, instead of healing spiritual energies, deadly weapons that can anytime harm you if you improperly use them...by mistake? This is a dualist thinking more appropriate to the Dark Ages when everything that they don't understand would be automatically banned and considered dangerous, but this seems to be convenient for many humans. Just the time period is different, but the methods remain the same. And this mentality can be found even today with many so called Reiki "masters" who use guidance from Mikao Usui's handbook even in the 21<sup>st</sup> century! That means they are not considering evolution as a fact and a closed system could not evolve. In fact they do not consider evolution as taking place anymore. Most of so-called masters are affected by dogmatism and are more interested to keep the monopoly over the energies that bring them money!

As KOSO RAYS will work only on those spiritual enough and willing to help raise the planetary level, the presence of these energies here in these times is not accidental. Individuals that will carry these energies will transform themselves and will facilitate the presence of these energies here. This planet has evolved even though anyone can say that it is not visible or noticeable, and the process continues further. All of us will raise the spiritual level of the planet by just

feeding Mother Gaia with these long awaited energies. And even a total disaster that could lead this 6<sup>th</sup> civilization to lamentably fail as Lemuria or Atlantis could be avoided, making evil inoperative here through these vibrations and the new energies that will come through.

And now comes the most interesting part. Obviously in higher dimensions there are no symbols or no religion, only pure love and a living through and in GOD. Symbols are used here to represent us through our limited 3D perception and imagination, but mainly as representing some groups and to give participants the sensation of confidence in the organization. This world is full of symbols, but not much love. Look for example at the Christian cross. How can you imagine that we'll meet another planet civilization and explain them about our stupid beliefs in heaven or hell? Do you need more reasons to find out why people of this planet are so primitive or alienated? Did you ever think about religions as an alienation of spirit? Did you think that a priest or a politician would properly represent you in contact with another race? A TV star or maybe a movie star? ☺

Of course, KOSO RAYS function just mentally — just think and they are set in motion. This is the next stage of evolution; in fact everything in the Universe is mental. It is enough just to think about a Ray to use it. Just one shy thought about Rays make them work and this is the reason that I remind you about your wishes – they do come true! And that's because KOSO RAYS could follow your inner thoughts. Your brain will do it. See how easy it can be if you dare to use your brain? ☺ Your mental capacity and your imagination might be the limits – be aware of this!

Anyway you will be lead progressively to changes in many areas of your life but not without your efforts. The old patterns and energies will fade away or simply will be replaced and even habits you try to get rid of from long ago will go away. These attunements will lead you to a new being, free from many harmful effects of this so-called civilization, religion or politics, the greedy society of materialistic apes.

KOSO RAYS involves 9 Rays that requires separate attunement to each of them. Each Ray has a main purpose that is specified. This does not exclude any other uses and only you will conclude practically what those will be. Basically they are designed for what is specified, but because of the non-restrictive character could be programmed to work on any areas you wish.

- 1- **BLUE RAY** – The Healing Ray. Provides spiritual healing.
- 2- **GREEN RAY** – The Essence of Life Ray. Is designed to rejuvenate the body and the spirit. Also heals and transcendently helps recovery.
- 3- **YELLOW RAY** – The Abundance Ray. Helps your projects and all areas of your life.
- 4- **ORANGE RAY** – The Mind of the Universe Ray. Develops the power and speed of brain activity and thinking.
- 5- **RED RAY** – The Fighters Ray. Knows no boundaries and fits those who fight against limitations.
- 6- **VIOLET RAY** – The Spiritual Opening Ray. Expands spiritual horizons.
- 7- **WHITE RAY** – The God’s Pure Love Ray. Cleanses the spirit from any impurities.
- 8- **GOLD RAY** – The Permanent Connection to God. Leads you directly to God!
- 9- **SILVER RAY** – The Clarity Ray, Interplanetary Traveling Ray.

The KOSO RAYS attunements are not performed by any human as many previous “masters” claimed about “their” attunements. The system as is presented here, works also in other dimensions and environments.

**Anyone that wishes to be attuned just has to ask it on my behalf to be attuned and the attunement will proceed immediately. Based on an agreement between myself and The Source, anyone asking the Koso Rays attunements on my behalf will receive them automatically, no matter when you will ask for it, now or ever, but of course this is taking into account the person’s spiritual background. You have total control over the attunements; never being dependant on any master or scheduling and no one should or could charge you for what is given freely to anyone!**

The downloading, or the attunement part is simple and could be done with or without a meditation. The **meditation procedure** is described here. Sit comfortably upright with a vertical spine position focusing on the breath, making the inhaling and exhaling equal until

it works automatically. Then slow down the breathing process and focus your mind on an image of something peaceful like a flower or anything else that would not disturb the spirit (some will find it also efficient to focus on a candle; the image should be 3D also). Contemplate this flower trying to see all the details of it while the breathing process runs in the background. Your mind should be focused only on this image, a process that will gradually eliminate any residual thoughts. After completing this level you should leave the image and focus your mind only on the void! This is the most important part of the meditation process and even now there could appear sporadic fragments of thoughts. It seems that your brain enjoys a lot of things while you are not aware of them, until you will introduce discipline. It might be the suggestions induced by television or the media?☺ The focusing part should go further until the void becomes absolute. This is the part, which requires a severe mental discipline and that is the real beauty of this meditation.

In any meditative state you could use for attunement an affirmation like this: **“I call down upon me the KOSO BLUE (or any other Koso Ray) RAY attunement from Armand until I am fully attuned”**.

Lately the attunement process could be completed with all Koso Rays in a row.

Using the KOSO RAYS is extremely simple. Just project any Ray that you might need on specific purposes that you have and program it to complete the job. For example, in healing purposes you can send Blue Ray to the cells of the affected area to heal and to reestablish the balance. Then you could send Green Ray to balance and rejuvenate the cells until the job is completed.

In some cases you might need to concentrate Koso Rays to a subject (the multiplication factor will be established by yourself—such as x10 power or x100 power or even more) and program the concentrated Koso Rays to do some specific work, until the job is done!

In healing it is very important to eliminate the causes that provoked the illness (in many cases malefic entities). Be aware that diseases always have spiritual causes. Obviously a healthy status is synonymous with a high vibration state! A low spiritual state or a state of mind permanently focused on low vibration subjects will spread those low vibrations to the entire system, and that will become a status quo for that system. This will lead sooner or later to an imbalance in the system.

The environment on this Planet is not very friendly and we are surrounded by a lot of low or unfriendly entities and energies. Our energy fields act like an astronaut suit protecting us from the environment as the immune system protects our physical body from bacteria using antibodies. As long as the entire system vibrations are low, especially for a prolonged time, the energy fields will be weaker and in some areas could be weakened enough to be vulnerable to various external aggressions. In that manner different organs could be affected by energies or entities. Prolonged exposure to those energetic aggression factors causes the energetic matrix to be destroyed and obviously malfunction on the physical level. Soon that could lead to a major disintegration at the cellular and tissue levels so nothing can live in the absence of fundamental life energy.

Here is the disease level where healers regularly try to heal, but they are healing only the effects, and not the true causes. If the stage of that disease is not quite advanced the healer could succeed. If the patients are not healed mentally or spiritually and continue the bad habits that caused the disease, sooner or later the disease will reappear, maybe in other place or other form.

In this case, only two solutions are available: the permanent supervising of the subject by a healer that should energetically refill the affected areas permanently and should feed the energy fields of the patient, or spiritual elevation of the subject. The First solution is out of the question because of the karmic perspective. In most of the cases that person should learn some lessons in his life and that disease could be the consequence of the refusal. How can you be more helpful to such a person? Healing? Yes, but only in the case of that person will assume his life lessons and go further for a spiritual evolution.

KOSO RAYS could be used individually or at once just sending them all to the subject in a packet. In that case the frequencies needed for your purpose will work, but the main advantage is that you will avoid losing time searching for the right Ray for that specific purpose. In the same manner please send KOSO RAYS to Planet Earth from micro to macro level and program them to heal it and to increase its spiritual frequency. You can use the same technique on the entire Solar System, which is also supposed to evolve along with Planet Earth.

Traveling with the Silver Ray should be done in a meditative state, just projecting the Silver Ray from you to the subject, back or further in time. That will open a corridor from you to the subject, without

any interference. In that way you should find your masters of the spiritual world. Just send Silver Ray directly to your masters of the spiritual world, even if you don't know them yet, to find them and to establish the contact, then travel along the Ray and contact them.

All these energies will take you far beyond what you are now capable of seeing or predicting. Experiment with each one and just get rid of any limitations that you impose upon yourselves; and as much as possible **STOP THINKING OR REACTING IN PATTERNS**. Free yourselves from any old teachings, even Reiki. There is so much false information in old teachings enough to convince many of you that you can barely do anything. They placed limits on everything just to stop you from seeing your Divine Self and that everything is so easy and truly within your power. Because you indeed have the power to change! I do not affirm that Reiki isn't good, but Reiki failed lamentably under the power of some "masters" that totally perverted and dogmatized the system that was meant to awaken humanity at the beginning of the last Century. Reiki was the initial platform, but for those who want to cross borders it isn't enough. It is time to take further steps.

Analogies or comparisons of KOSO RAYS to other energies are out of subject. It is hard to compare KOSO RAYS to anything known before, because of their totally different nature. Please try not to assimilate them by mistake with other energies. Take them as they are and experiment. Is a matter of time until they will debug you and release the blockings. Until then please be patient, have faith and use KOSO RAYS frequently.

KOSO RAYS® is the platform system for the next transformational energy systems: SOKAISI SYSTEM® and KOFU INITIATION®
