Reiki for Financial Abundance

By Haripriya Suraj

The most significant reason for not having enough money does not lie in our lack of educational qualifications, luck or fate. It lies within. You attract what you are. If you truly believe you deserve to have enough money, you send out that vibration into the Universe and money will begin to flow into your life. If you subconsciously believe that money is hard to come by or that it is only for a lucky few, you block the flow of money into your life. Blocks to financial abundance stem from deep-rooted beliefs about lack. Some of us may also have been conditioned to believe that we must struggle and work very hard to live prosperous lives.

Dear Friend, you do not have to work hard all day to enjoy financial abundance. You can work smart instead and still attract financial abundance and prosperity.

Here are a few tips that could help you get into abundance mode and invite financial prosperity into your life.

Affirmations

Affirmations are one of the most powerful tools you can use to change deep-rooted beliefs about money. Use the following affirmation or word an affirmation that feels right for you. Write it down in your journal every morning upon waking and every night before going to bed.

“Thank you Universe for the abundance of money flowing into my life at all times.”

Place a ball of Reiki over the page and request it to work on your affirmation. Draw the symbol Sei Hei Ki and also any other symbols that you are guided to on the page. Reiki will work on the affirmation and also on your deep-rooted beliefs about money and heal them.

Money Bank

This is a powerful technique and is also fun to practise! Pick a box that you like and call it your “Money Bank”. On a tiny piece of paper, write the amount of money you would like to receive on a daily basis and put it into the box. Do this at least once every day. The reason it must be done every day is to help you maintain a steady mindset of abundance. It would be wise to choose reasonable amounts of money initially. This will ensure that your logical mind does not discourage with logical reasons as to why you cannot attract large amounts.

Small amounts received everyday will anyway add up to a large sum over a month. You do not have to stick to the same amount every day. Feel free to make small and comfortable changes in the amount you wish to gift yourself each day. Thank the Universe every time you put a piece of paper money into your money bank. Place a ball of Reiki in the bank every time you put a new piece of paper money into it. This will keep your bank charged. This exercise gives a good feeling and makes it easy for you to stay in the vibration of abundance, thereby inviting more abundance into your life.

Also remember to remove some paper money from the bank regularly and tear it up. This act is symbolic of spending money or giving it away. This is done to keep the money in your bank circulating, which is the natural order of flow. Money is received and money is given away. It is good to be comfortable spending and giving away money too and not just receiving it. Know and trust that there is enough to go around for everyone.

Gratitude

Finally, be grateful for the money that is in your life already. Be grateful for your job or other source of income. Even if you do not like your job at the moment, be grateful for the fact that it helps you stay financially secure. Every time you receive money, no matter how small the amount, be grateful and thank the Universe for it. When you check your bank account statement, thank the Universe for the money that is circulating in your life. Being grateful for what you have not only helps you appreciate and enjoy all that you do have, but it also helps you attract more of it into your life.

Midas Star - The Reiki Symbol for Abundance and Prosperity

By Sunetra Dasgupta

One of the few stories, which we have read in childhood, is of Midas touch. Whatever King Midas touched, turned into gold! Including his lovely daughter! At some point of our life, whenever we have faced acute cash crunch I am sure some of us have wished to have the Midas touch.

Midas Star is a prosperity symbol, which is taught in Seichem Reiki or Karuna Ki. Midas Star is commonly known as prosperity symbol, but prosperity just does not mean money, it also means to bring about success in inter personal relations, luck and harmony to us and people around us. It brings around changes in all walks of life wherever there are blocks and helps us achieving our goals.

Being attuned to the symbol does not mean that we can frivolously spend our money and with the help of this symbol there will be abundant cash flow. The symbol signifies, that with steady flow of money, we can establish our power and help the society become a better place to live in. It is said if a red line is drawn under the symbol the power of the symbol increases, also the energy becomes much more grounded.

The Midas Star - Reiki Abundance and Prosperity Symbol

The symbol can be drawn on the cash or cheque, which we receive, or also drawn on a piece of paper and kept in our Reiki box to ensure free flowing money and abundance. The symbol is also extensively used in Feng Shui by painting it in different colours keeping in mind Ba Gua color theory and five-element theory with Feng Shui symbolism in shapes.

This is one of the most close guarded symbol of Seichem Reiki and being attuned to it can do wonders. :)

Abundance and Prosperity with Reiki and Affirmations

What is abundance, if not a mindset? Imagine two hypothetical people with identical situations: living paycheck to paycheck, having unsatisfying jobs, and in a new town with no friends.

One of them thinks: *"When will things be right for me? Why can't I get ahead? I hate my job, and they just raised the taxes again, and I have no friends to ask for help."* This person has the mindset of scarcity.

The other thinks: *"Wow, I'm so grateful to have a job in this economy. Even if it doesn't pay much, I can pay my bills on time and enjoy a place to stay, electricity and hot water. Surely I'll find a way to make more money soon enough. I have my health. Now I'll get me down to the library and see if I can make some friends there."* This person has a mindset of abundance.

Whoever has, will be given more

And whoever does not have, even what he has will be taken from him (Mark 4:25 ;)).

Now, try to imagine where each of the two hypothetical persons above will be in 5 years from now. Insightful exercise, or what? :)

Changing your mindset is probably one of the most challenging tasks you can undertake. Fortunately, Reiki has a few resources that you can employ to help you get into the abundance and prosperity mindset.

The Precepts

I'm grateful for my many blessings. Just for today, I will not worry.

What is the difference between the two persons described above? One is grateful, the other is worrying. Whenever you catch yourself feeling or thinking scarcity, remember to think like the person with an abundance mindset.

Affirmations

Choose one or more areas in your life where you feel scarcity. It could be love, health, friends, money, or just about anything.

Craft some affirmations that resonate with you and cover those areas of your life. For example:

- I have plenty of money. I have more than I need. I'm a generous giver, and an awesome receiver. Money flows to me easily and freely, and I use it for the highest good.
- I have great relationships. I take time every day to express my love, and love flows back to me abundantly.
- I love and respect my healthy body. It gives me joy, and I have all the energy I need to do everything I want.
- I have all the time in the world to do everything I set my mind to.

If you get stuck here, search the internet for more affirmation ideas. You can also get quantitative if you wish:

- Money is freedom. I comfortably earn \$X / month. I enjoy spending money on my favorite things.
- Love is all around. I deserve all the love and I'm a love magnet. I have X dates / week, and I can easily find compatible people.

Once you have some affirmations you like, write them on a piece of paper and carry them with you, perhaps in your wallet.

Reiki

Now you're ready to Reiki the * out of those affirmations.

Whenever you have some time, ideally at least once a day, but the more, the better, take out the piece of paper and read it. Several times if you have time.

Invoke Hon Sha Ze Sho Nen to connect to the state represented by these affirmations, and start sending Reiki to the list. As you do it, use the mental healing symbol to dissolve conflicts and bring the ideal state closer and closer. Relax and just let the energy flow. When you sense you're done for now, end the session and smile. It won't be long before the old patterns are broken, and your life starts changing.

Tips

You can send Reiki to your list without taking it out. For example in the bus, or while waiting at the stop light.

You can write down the affirmations each time instead of reading them. You can write them down several times per session, while sending Reiki. You can also draw the symbols on the paper.

Attract Money with Reiki: 50 Money Affirmations for Your Reiki Box

Here's a list of money affirmations that you can get inspiration from. Choose the ones that resonate with you, and modify them if needed so that you feel totally comfortable with them.

You can place them in your Reiki box for easier focus, but we'd recommend that you read them several times a day too. Remember, there is nothing wrong with having money, but many people have conflicting feelings (such as that rich people are snobs, or have cheated their way into wealth etc) which hold them back from experiencing the abundance they deserve.

Infinity Abundance Grid

By Rinku Patel

Here, abundance doesn't mean only money. Abundance means anything abundantly, whatever you desire - be it money, love, protection, peace or whatever.

Money, a single word, which helps us achieve and fulfil our goals and wishes along with your hard work and luck. Money doesn't grow on tree but we can try things that attracts more money in our lives. Yes, I totally and fully agree that money is not everything in life, money cannot buy love and peace. But as the saying goes "*Better to cry in a Ferrari than under a bridge*". Again, wanting money doesn't mean you go and dupe people. Hurting anyone for monetary issues is a strict no-no. I prefer working with crystals to bring and attract more money to life.

Love, a single word, without which survival becomes impossible. Love in any form is necessity, not just amongst the partners. Love for peace and humanity, love towards elderly, love for orphans, love for animals and pets... It is a feeling that flows freely, it cannot be forced on anyone or from anyone. So, what do you do when you are in a relation and love has vanished, that old passion is gone? You can't force anyone to love you back. Here again crystal helps, to bring in love, luck and old passion back.

As I always say, crystals and Reiki when combined brings magical and amazing desire. Working with crystal grid is the sure way towards manifesting your goals and desires. There are different types of grid layouts which you can work with. Today I will show you infinity abundance grid. Here by abundance, I do not mean only money. This infinity abundance grid is about Abundance

of money, Abundance of love, Abundance of peace, depending on the crystals you use. This is a very simple and non-fancy grid which you can make easily.

For Money you need:

- 6 Citrine tumblers (or any money stones)
- 6 Clear Quartz tumblers
- 1 pyramid/sphere/cluster (Money stone)
- 1 wand to connect and charge the crystals

For Love you need:

- 6 Rose Quartz tumblers
- 6 Green aventurine tumblers (any love stone)
- 1 pyramid/sphere/cluster (love stone)
- 1 wand

For protection you need:

- 6 Black Tourmaline tumblers
- 6 Smoky quartz (any protection stone)
- 1 pyramid/sphere/cluster (protection stone)
- 1 wand

Select crystals as per your requirement. You can use any wand to charge and connect the grid.

How to make a grid:

- Assemble all the cleansed crystals. Hold one set of crystals in palm, draw CKR over it and rotate clockwise seven times saying ***purify purify purify***. Place another palm over crystals and let Reiki flow for 5-10 minutes. This is the time when you put your intentions into crystals. While charging crystals with Reiki, think of your intention, such as abundant money, abundant love, abundant protection or whatever. Do the same with all sets of crystals.
- Take an A4 size paper and draw a big infinity symbol. You can take a readymade printout too. On four corners of the paper, draw the power symbol to seal the energy.
- Place the pyramid/sphere/cluster at the center of the symbol where two lines of '8' intersect.

- Place citrine and clear quartz or rose quartz and green aventurine or black tourmaline and smoky quartz tumbles alternatively as shown in pic.
- Take a wand, rotate over pyramid thrice saying **connect connect connect**.
- Now, starting from the top middle stone, rotate wand clockwise thrice over each stone saying **connect connect connect**. (You can start with any stone, not necessarily the topmost)
- Once you complete the full infinity 'connect' cycle, bring the wand back to pyramid, rotate thrice and say **activate activate activate**.
- Now make a Reiki infused Chi Ball and place it over the grid with the intention to keep it charged for next 7 days. Place a Chi Ball every week. In between, if needed, cleanse your crystals and reset your grid.

And I am sorry, the grid pic is not tidy. My Pari(dog) stepped on it while I was arranging it. She too loves crystals.

16 Ways to Manifest Money with Reiki

By Rinku Patel

As I always say, Money is an integral part of our life. Apart from our basic needs, we need money to live the life we envisaged for ourselves and for our family. The extra income is always helpful to fulfill our desires and goals. Aren't we all always on a look for the ways to increase abundance in our life?

Here are some methods to manifest more money into your life:

1. Reiki Box

Reiki box is that magical and sacred box in which you put all your intention slips together and give Reiki to the box. To heal your money issues, make intention slips with appropriate symbols and heal the box daily. You can write your own intention or pick affirmations from the list above. Do not put any punctuations or commas when writing your intentions. OK, so Reiki box is magical but that doesn't mean that you put an intention stating of being a millionaire within 10 days 😊

2. Heal your Wallet/Purse

It is easy. Just hold your wallet in your palm and give reiki with set intentions or affirmations. Those who are attuned to symbols can use symbols freely.

3. Heal your Cash, Cards and Bank accounts

You can put energy ball on cash, cards, and bank accounts with set intentions or affirmations. Alternatively draw symbols and give Reiki to cash, cards, and bank accounts. Draw symbols on the cash you receive, cash you give, checks/cheques you write, your bank accounts, your stocks and shares and other investments.

4. Reiki Candles

Infuse the candle with Reiki and set intentions or affirmations. Let the candle burn away all your money blockages and negativities.

5. Distant Symbol

Use the distant symbol to heal the past blockages and obstructions related to money. Send Reiki to future situations, future finances, send positivity, and remove possible blockages.

6. Money Crystals

Here is the list of Money Crystals that you can use to attract abundance. Take a crystal, cleanse and program it to attract more and more money towards you. You can wear this crystal in the form of bracelets, pendants or earrings keeping it near your auric field. I make abundance bracelets and wear it. You can place the programmed crystal in your house and work place. Leave a stone in your money drawer or cash register.

7. Magic Money Box

Make a box with mirrors glued inside the box. Place the things that symbolize money inside the box (cash, real jewelry, money crystals, energy circle or switchwords). Here is the procedure to make Magic Money Box.

8. Crystal Grid

Create a Crystal Grid, make intention slips just like you make for Reiki Box and place it on the grid. You can use 'money crystals' to attract more abundance for your grid.

9. Switchwords and Healing Numbers

Chant the switchwords DIVINE FIND COUNT to attract more money. There are more switchwords and healing numbers for money, prosperity and abundance but the above ones being the easiest, I use that mostly. You can write switchwords and healing numbers on a paper, draw reiki symbols, hold the paper between palms and give Reiki to it. You can make energy circles by writing your name, switchwords and healing numbers inside a circle. Make sure the circle line is not broken or over-lapped. Alternatively you can get a printout of energy circles provided on websites such as blueiris.org. You can place this energy circles under your pillow, stick it on the wall or charge your food and water on it by placing plate or bottle on it.

10. Remove Money Blockages

Take a black tourmaline, black obsidian or black onyx. Cleanse and program it to remove negativity and blockages related to your wish and transmute it into

Divine light. Infuse the stone with Reiki. Write your wish on a piece of paper and draw symbols on back side. Put programmed stone over it. That's it.

11. Space Cleansing

Cleanse your home and work space with power symbol and by placing energy ball in all corners. You can also use sage, incense sticks, rock salt or camphor lamps for space cleansing.

12. Symbols

Draw Reiki power symbol, emotional symbol, distant symbol, Vasudha symbol, Midas Star, money symbol or Zibu prosperity symbol on a paper. Put this paper in your purse or wallet in such a way that every time you open your wallet/purse, you can see it. Think of money, prosperity and abundance whenever you see your paper. You can place this paper on cash register or anywhere in front of you.

13. Angel Cards/ Tarot Cards

Pick cards that resonate with your money issue or abundance wish. Draw symbols over it and put it under your pillow every night.

14. Piggy Banks, Money Box, Bill files

Charge your money box, piggy bank and bill files with symbols and Reiki. Place programmed money crystal inside your piggy bank or money box. Place it over your bill files.

15. Angels

Call upon Archangel Ariel, Archangel Raziel, Archangel Barakiel or Abundantia Angel to delete and erase all the negative effects regarding money created by your actions, beliefs and thoughts. Ask angels to connect you to right people who can further help you with your job, business and career.

16. Animal Spirit

Call upon Squirrel, Frog or Crane. Carry their pictures with you, save the pictures as wallpaper or screen-savers. Squirrel, frog, and crane open money sources required by you.

Healing Your Finances with Reiki

By Luzia Light

1. Being at Peace with Money

Many healing practitioners have a love-hate relationship with money. It's like they know they need it to buy food and pay the bills, but on a deeper level, they also believe that it's not spiritual and "good" to have a lot of money. Maybe scraping by is okay for a spiritual person, but having a financially comfortable life is already too much. Often energy healers feel guilty for charging money for their services, because they are working with divine energy, and shouldn't that be free to everyone? Of course, divine energy is free, but when a healer spends one or two hours of her or his time to channel that energy and enable someone else to heal him or herself, then that is time they can't spend working at another job, earning a regular income. They don't get paid for the energy, they get paid for their time, skills, education and experience, which make the healing possible.

If you don't get paid for your services, you will have to take on another job to make ends meet and then you can spend less time doing healing work. And you can't help others on an empty stomach or while you have no home because you couldn't pay the rent. So, money is a tool that we receive in exchange for our services. When we love ourselves enough, we realize we deserve to get paid well, we know we deserve to have money to pay for all our needs, because what we do has a lot of value. Also, we need to consider that helping others to heal themselves saves them a lot of money because they can go back to work and they may not need to buy medication or pay for other medical expenses. Healing with Reiki has an immeasurable value and we need to be open and receptive to accept money in exchange for it.

2. Free Reiki Healing

If we provide healing for free, it is often not accepted. This addresses the guilt feelings of the client. They might believe that they don't deserve to receive something as wonderful and life-changing as Reiki energy for free. So, they close themselves off energetically. When clients pay money, they give their energy - money they received for their work - and then are open to receive something in return. Money is a wonderful way of keeping this flow of energy going. If you do choose to provide Reiki sessions for free, make sure that you don't do it out of guilt or obligation, which is usually followed by a sense of resentment and self-loathing. Instead give from your heart and act from a

place of love and abundance. If you attract a lot of clients with financial difficulties, ask yourself if this is maybe something you attract because you need to address these issues in your own life first. Always ask your Higher Self/Higher Consciousness what the best possible way is to help your client.

3. Bartering

Another way to activate the flow of energy of giving Reiki and receiving something in return is bartering, receiving energy in the form of another service provided by the client. However, practitioners need to be very aware and discerning about this kind of exchange. A client might offer something that the practitioner doesn't really want or need, and although it might have equal or even more value, if you don't really need it, it doesn't have any value for you. If you are struggling financially and know that you need to pay your electricity bill, then receiving foot reflexology in return for your Reiki session is not really helpful at all . It's important to set boundaries and be clear about what you are willing to accept when it comes to bartering. Money really is the simplest form of energy exchange because it can be traded in for exactly what you need. It's kind of a brilliant system that way, really.

4. Healing your Fears and Limiting Beliefs about Money

The best way to clear your mind and subconscious of your limiting beliefs around money, including possible poverty vows you may have taken in a past life as a monk or nun, is to Reiki yourself.

- Know that the Universe provides you with everything you need, including money to pay your electricity bill.
- Let go of the resistance and allow divine Reiki energy to permeate your body and your entire life. When we live without fear and ego-based resistance to abundance and well-being, we live in an energy of love and light and everything just seems to effortlessly fall into place.
- Reiki your bank card, credit card, bank statements, your wallet, your check book, your piggy bank, anything that involves your finances. Sending Reiki energy to all these places, eliminates the energies of worry and fear and replaces them with love, light and well-being, thus enabling you to feel at peace with your financial life.
- When you Reiki yourself, ask your Higher Self or the Universe or your healing guides for divine guidance: "Where are my blocks to abundance? Which area of my body do I need to send Reiki energy to?" Then follow your inner guidance and Reiki that area until you feel it's

accomplished and done. Maybe there is a secondary area you need to address. Keep asking to be guided to where Reiki needs to be applied. Common areas that are affected by blocked and limiting money flow are the root chakra, which is responsible for survival and having your physical needs met, as well as the heart chakra, where we receive love and abundance in its many forms.

When we let abundance come into our energy fields and lives, we experience health and well-being, joy, fun, great relationships and are overflowing with positive energy. And from this place of inner strength and power, we are able to provide the best service possible and have plenty of time and energy to provide Reiki healing for our clients.

Attract Money

By Rinku Patel

With the help of powerful intentions and law of attraction, Universe magnifies the process to manifest your desires. Add Reiki energy and Crystal energy along with Law of attraction and leave all your worries and wishes to Universal Life Force Energy.

Here is one of the simplest methods to attract more money:

- Take a cash note. If possible, take a bigger denomination.
- Take Money Crystals, hold in non-dominant hand, draw the power symbol and rotate your other hand coned fingers over it anti-clockwise and say CLEANSE CLEANSE CLEANSE. Program it with any Money Affirmation or you can use this one: *I place no limits on the amount of money I can receive.*
- Fold your cash and hold in non-dominant hand. Place crystals over it. Draw Reiki symbols as well as any abundance symbols you know.
- Give Reiki to this cash and crystal with money affirmation or use this: *I place no limits on the amount of money I can receive.*
- Put this cash in an envelope or box. If you select envelope, place your crystals on top of the envelope. If you select a box, place these crystals inside the box.
- During next 3 months whenever you come across any unexpected money or anything that symbolizes money, put it in this envelope or box.

Do not keep counting. Notice the magic after 3 months. I have collected quite a few notes in few days. I haven't counted yet but very happy seeing the bulge.

Here is another method:

This particular method is especially for needy ones. E.g. you need \$500 to pay insurance or you need \$1000 to pay mortgage.

- On a piece of paper draw the power symbol on 4 corners of the paper, sealing the energy.
- Write your intention very clearly: *I need \$1000 to pay mortgage or I need \$500 to pay insurance dues.*
- Draw Reiki and abundance symbols on back side of the paper. Give Reiki to it for about 10 minutes.

- Carry this paper wherever you go throughout the day. Read your intention few times whenever you get time.
- At night, call upon Angels and Universal energy to manifest your needful desire.
- Repeat this for minimum 10 days or until manifestation.

If it is meant to be, and for your highest good, you will get your money.

Magic Money Box

By Rinku Patel

Money is an integral part of human life. We need money to survive. Apart from essential use of money, we need money to follow our passions and fulfil our dreams and goals. Below is a small way you can attract more money to fulfil your wishes and goals.

The inside and outside of my magic money box. Lord Ganesha wooden cutout on top.

First and foremost, thing to do is to cleanse your surroundings. Let go of “excess baggage”. De-clutter your work space and home. Invoke symbols and Archangels to cleanse and purify your surroundings. Burn sage and incense sticks for purification. If possible, put this magic money box in southeast corner of your house or workplace.

To make a Magic Money Box:

1. Take a box that attracts you. It could be anything, a shoebox, small carton or a jewellery box of any size, any shape. Take time to decorate it. Put all your heart in decorating the magic box. Imagine your financial goals manifesting while you decorate your magic money box. You can use anything to decorate, wrapping paper, stones, shells, colors, glitters, whatever attracts you.
2. Take mirrors of the size that can fit in the box. You need minimum two mirrors. Maximum no limit. When the number of mirrors in all the sides of the box are added they should be even. Mirrors can be placed on 2, 4 or 6 sides of the box facing each other in parallel.
3. Stick the mirror on the inside base of the box and on inside top of the box (Lid). If you want to add more mirrors, stick on sides too. Keep in mind that the number of mirrors has to be even numbers when added in total.

4. Take a piece of paper (green if possible), make intention slips based on finance, abundance or prosperity, stating your wishes clearly. You can also put money-affirmations. Draw symbols that you are attuned to on the back side of paper.
5. Add the things that project money in the box. Citrine, Aventurine, Cash, Jewellery, etc. Do not use fake jewellery as it does not represent real money.
6. Take a candle (green if possible) and lit it. The reason for the paper and candle being green is simply because the color green attracts and symbolizes money. Place your ready magic box beside the candle. Read out your intentions aloud or in mind. Visualize your wishes being manifested. Call upon your angels and request them to keep your money box charged and flowing with fortune. Blow the candle and thank the Angels and the Universe.
7. Give healing to the magic money box daily. Burn sage or incense stick around the area where you keep the box, so as to keep the area pure and devoid of negative vibes.
8. Once your wish is manifested, invoke symbols and angels. Thank symbols and angels and burn the slip.

Personally, I placed one affirmation only. "I love money. Money loves me and comes to me easily." Within one month of making the box, we bought two laptops (My husband was against buying even one new laptop earlier). After another month I started festive-crafting business. Next, hubby bought few gold jewellery for me and daughter. I thank my magic moneybox daily. I am saving more money than before.

My only advice to whoever tries this is to have patience. Don't let the waiting period bring negative thoughts. Try this method and fulfill your dreams faster.

Money Reiki - Guide to Removal of Financial Blockages

By Pinky Punjabi

This is my first article with Reiki Rays so I wanted to write about the Reiki very close to my heart after my Usui Reiki and decided will write on **Money Reiki**. Money Reiki has brought in tremendous changes in lives of many I have healed and also for me personally. It has amazing energies which will transform all your financial blockages and obstacles from life and help you in exploring your financial growth opportunities.

Money Reiki is channeled by Stephanie Brail, this Reiki will not make you rich overnight (I believe that nothing can make us rich overnight but with Reiki and dedication in our work we will achieve financial success soon). If you follow the Money Reiki methodology systematically you will not only be able to take care of your financial problems pertaining in your life but also be able to clear the blockages you have been facing in improving your financial status. Money Reiki also helps in clearing your karmic blockages which are due to issues surrounding money or any negative money karma attracted by you.

Many healers follow different healing patterns but I will explain here the pattern I follow for me and for others and have seen successful results after giving Money Reiki. I always combine Money Reiki with positive affirmations and Usui Reiki for best outcome.

Here are the steps followed by me

1. I call on angels and money gods and goddess to assist me and shower me with prosperity and divine abundance (I love calling on Archangel Ariel, Zadkiel and goddess Lakshmi, Abundantia, Fortuna and Lord Narayana).
2. I set clear intentions on what I need in regards to prosperity because I feel if I know what my goal is or focus when it comes to prosperity and finances

achieving becomes easier for me. I write my intentions clearly in a piece of paper for example: *“I want to attract more clients for my workshops, my clients benefit from my workshops and enhance their knowledge and are happy to learn from me and refer friends and family members to me”*.

3. I start the Money Reiki with The Golden Pyramid symbol as this symbol helps in clearing deep karmic issues and I feel first step towards prosperity is clearing your past karmas and blocks. I imagine myself in front of the golden pyramid and the pyramid is spinning and I feel the pyramid opens and swallows all my karmas and negativity towards money and then it transmutes these energies and releases it to the mother earth.

4. Next I use the Clearing symbol which helps me in releasing any resistance which I have towards attracting money in my life and releases them and makes me receptive towards abundance. I must add here that I keep drawing this symbol in air around me from time to time to clear my debts or any financial related issues in my life.

5. Then I use the Affirmation Symbol and this symbol I use with my positive affirmations for attracting money (for ex. I say *Money is coming in my life effortlessly and abundantly*) while drawing this symbol. I draw this symbol covering my whole body as so that it acts as a law of attraction for me throughout the day.

6. Last I use the Grand Master symbol and this symbol works like a money magnet in our lives and it will magnetize anything you desire in life from abundance to anything (be it car, home and any object you desire). I finish the Money Reiki procedure here by drawing Cho Ku Rei and the Master symbol at this stage.

7. I now thank all the gods and archangels for showering me with prosperity and blessing me with financial independence and prosperity beyond my expectations.

This is just a brief introduction to Money Reiki. To be able to use it, you need attunement, manual with proper instruction.
