## Uranus: Also known as Ouranos (God of the Heavens)

As a least aspected planet, Uranus portrays who you are at a core level. This is your natural expression of soul.

Unlike the other planetary symbols, Uranus is neither a masculine nor a feminine principle. It's like a toggle switch that alternates between the two.

It's an outer planet, but it's not the outermost planet. It's in between the social-collective symbols of Jupiter / Saturn and the transpersonal symbols of Pluto / Neptune. In that special location, it signifies Divine intuition. It's more than merely a personal intuition. It embodies a genius quality: an ability to put things together in a fundamentally new way. It inspires us to assemble structures that have never been assembled before. To create novel forms—in your life or in physical things, such as inventions, through which new parts of the Self will manifest. Those born with a Transcendental Uranus often exhibit a forward-moving (or what the Greeks call telic or teleological) impulse: the notion that things move forward, toward a goal, for a reason, for a purpose.

**Uranus** has an atmosphere that is rich in hydrogen and methane. It is the methane which gives the planet its blue color. The reason for this is because methane gas reacts with sunlight and absorbs red wavelength visible light. The remaining color, blue is scattered in the atmosphere and reflected back into space.

Since Uranus is covered with clouds astronomers must use indirect methods to study beneath these cloud layers. It is believed that Uranus has a rocky core about the size of Earth, surrounded by a deep liquid water ocean.

The strangest thing about the planet Uranus is its orbital characteristics. Uranus is the only planet, other than Venus, to rotate backwards (retrograde motion) as compared to all the other planets. In addition, all the other planets have less than a 30 degree axial tilt. Uranus, however, has its equatorial plane tilted nearly 90 degrees to its plane of revolution. This means that during the 84 year orbit, the North Pole points almost directly at the Sun for part of the orbit, then point away from the Sun during the other part of the orbit. On a planet closer to the Sun, this would have a devastating effect on the seasons, but Uranus is so far from the Sun that even this strange orbital tilt makes little difference in the overall temperature average of -200 C.

Uranus joins the ranks of those planets which have rings.

## Folk Lore

Uranus was the son of Gaia (Earth), and secondly her husband. And having wedded his mother, Uranus had by her an impressive offspring.

First the Hecatoncheires, who were of great size and might, each of them having a hundred hands and fifty heads. Uranus hated this terrible offspring, and used to hide them away in a secret place of earth as soon as each was born. It has been asserted that, in addition, Uranus rejoiced in his evil doing.

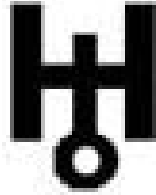

Thereafter Gaia gave birth to the CYCLOPES, who are known for having one eye on their foreheads. Though they were strong like gods, Uranus, repeating his previous deed, bound them and cast them into Tartarus, a gloomy place in the Underworld, as far distant from earth as earth is distant from heaven.

Then Uranus had more children by Gaia, the Titans. But Gaia, who had never accepted the fate of her former children, persuaded the TITANS to attack their father, the leader being Atlas. And for that purpose she armed Cronos with an adamant sickle. And when the opportunity came, all TITANS except Oceanus attacked him, and Cronos cut off his father's genitals, throwing them into the sea behind his back, some say at Cape Drepanum in Achaia.

From the drops of Uranus' flowing blood which fell upon earth, the ERINYES were born, and the GIANTS, and those NYMPHS called MELIADS. The genitals that Cronos threw away were first swept away over the sea a long time, but finally, from the white foam which spread around them, Aphrodite was born.

## The Attunement Process Pre-requisite Reiki Masters

Once you have been attuned to the energies of the Planet Uranus, you are able to pass them on to others.

The procedure is very simple...there are only two symbols, plus the Sacred Phoenix Symbol which seals in all the energies. The symbols are sent to you as one attunement.

You may like to light a candle, play some music or anything else that makes you feel relaxed.

Ask for protection from your Guides, Angels, Great White Spirit, or whoever you relate to. It doesn't matter who it is as long as you feel safe in their presence then start to send the energies and the symbols to your student.

Feel the energy coming out of your crown and heart chakras and going to the student.

If you feel that you want to use the Reiki distance symbol at any time, then you can, but it is not necessary.

When you feel that the energy has stopped flowing, then thank your "helpers" and you are finished.

### A suggested Meditation for receiving the Energies

Find a place where you will not be disturbed.  
Sit quietly and let yourself relax. Picture yourself lying on a deserted beach, or some beautiful soft green grass, or on the deck of an ocean going liner.

It is night and the sky is filled with millions of blue-white glittering stars. Just gaze at them in your mind's eye....feel your eyes getting very heavy and feel a soft, gentle breeze wafting around you like a delicate silk scarf. Now, picture the Planet Uranus, covered in clouds and almost lying on its side. See the rings that are around it, and see its bright moons.

As you watch it turning very slowly on its axis you become aware of two symbols leaving the orbit of your planet and gently floating to earth towards you.. One is quicker than the other...you can feel the energies from it and as it gets closer they become stronger and stronger. Feel those powerful energies, feel the symbol melt into your body. Feel the power and the wisdom and the knowledge. Allow it to be. Let go of all external influences and relax into the moment.

What do you see, what do you feel?

Everyone will experience something different as it brings to you only what you need.

After a few moments you are aware that the other symbol is now right in front of you. Draw it into your energy field too and feel the love and

warmth as the 2 symbols merge...they are like twin flames they belong to each other and now they belong to you.

Now the Sacred Phoenix Symbol enters your aura...you may feel it sealing in the other energies and filling you with a feeling of euphoria and completeness.

You may call on these symbols at any time that you need to re-charge or re-connect with the special energies of Uranus.

Spend as much time as you need absorbing the ancient knowledge then when you are ready slowly come back to reality. Take a couple of deep breaths and thank your guides and higher self for taking you on this journey.
